

## Seminario

# Parsing de dependencias

organizado pola Rede RELISCO  
Venres, 15 de xuño de 2012  
Facultade de Infomática, Aula 2.1a  
Universidade da Coruña

### Programa

- 10.00: **Xavier Carreras** (UPC)  
*A TAG formalism for Parsing and Translation*
- 11.00 : **Carlos Gómez Rodríguez** (Universidade da Coruña)  
*Undirected Parsing and Buffer Transitions: Two Approaches to Improve Transition-Based Dependency Parsers*
- 11.45 : Pausa café
- 12.15: **André Martins** (Carnegie Mellon University)  
*Turbo Parsing and Constrained Inference with AD<sup>3</sup>*
- 13.15 **Pablo Gamallo** (Universidade de Santiago de Compostela)  
*A Depurative Strategy for Dependency Parsing with Finite State Transducers*
